

# IMMUNIZATION POLICY ACKNOWLEDGMENT

# ARCHDIOCESE OF WASHINGTON – Catholic Schools

## ALL PARENTS OF STUDENTS ATTENDING ARCHDIOCESAN CATHOLIC SCHOOLS IN MARYLAND MUST <u>READ</u> THIS FORM, <u>SIGN</u> BELOW, AND <u>RETURN</u> IT TO YOUR CHILD'S SCHOOL WITH THE MARYLAND DEPARTMENT OF HEALTH AND MENTAL HYGIENE IMMUNIZATION CERTIFICATE (ADAPTED FOR USE BY ARCHDIOCESAN SCHOOLS).

## To All Parents of Students in Archdiocesan Catholic Schools in Maryland

It is the policy of the Archdiocese of Washington that all students attending schools in the archdiocese must be fully immunized in accordance with the immunization requirements against contagious diseases published by the local department of health. If your child has a valid medical contraindication to being immunized, and such contraindication is documented by a physician, an exemption may be permitted for the length of time certified as necessary by the child's physician.

Immunization in accordance with the Archdiocese of Washington's policy is a condition for admission into all archdiocesan Catholic schools. To be admitted to attend classes, there must be two forms related to immunization on file at your child's school by the first day of school, and they are:

- 1. THIS FORM, completed and signed; and
- 2. Maryland Department of Health and Mental Hygiene Immunization Certificate, (adapted for use by Archdiocese of Washington's Catholic Schools in Maryland) signed by a medical provider and parents (Pages 2, 3, and 4).

## Acknowledgment

To All Parents/Guardians: Please provide the following information and sign below to acknowledge that you understand and agree to this policy.

CHDIOCESE OF WASHINGTON *Rev. October 2016* 

## MARYLAND DEPARTMENT OF HEALTH AND MENTAL HYGIENE BLOOD LEAD TESTING CERTIFICATE

Instructions: Use this form when enrolling a child in child care, pre-kindergarten, kindergarten or first grade. BOX A is to be completed by the parent or guardian. BOX B, also completed by parent/guardian, is for a child born before January 1, 2015 who does not need a lead test (children must meet all conditions in Box B). BOX C should be completed by the health care provider for any child born on or after January 1, 2015, and any child born before January 1, 2015 who does not meet all the conditions in Box B.

#### HOW TO USE THIS FORM

The documented tests should be the blood lead tests at 12 months and 24 months of age. Two test dates and results are required if the first test was done prior to 24 months of age. If the first test is done after 24 months of age, one test date with result is required. The child's primary health care provider may record the test dates and results directly on this form and certify them by signing or stamping the signature section. A school health professional or designee may transcribe onto this form and certify test dates from any other record that has the authentication of a medical provider, health department, or school. All forms are kept on file with the child's school health record.

#### At Risk Areas by ZIP Code from the 2004 Targeting Plan (for children born BEFORE January 1, 2015)

#### Lead Risk Assessment Questionnaire Screening Questions:

- Lives in or regularly visits a house/building built before 1978 with peeling or chipping paint, recent/ongoing renovation or remodeling?
- 2. Ever lived outside the United States or recently arrived from a foreign country?
- 3. Sibling, housemate/playmate being followed or treated for lead poisoning?
- If born before 1/1/2015, lives in a 2004 "at risk" zip code?
- 5. Frequently puts things in his/her mouth such as toys, jewelry, or keys, eats non-food items (pica)?
- 6. Contact with an adult whose job or hobby involves exposure to lead?
- Lives near an active lead smelter, battery recycling plant, other lead-related industry, or road where soil and dust may be contaminated with lead?
- Uses products from other countries such as health remedies, spices, or food, or store or serve food in leaded crystal, pottery or pewter.
